Location: Flat No. 20, 2nd Floor, Meezan Bank Building (Ahmadaal Plaza), I-10, Islamabad, Pakistan

Professional Summary

Results-driven project manager with 2 years of experience in software development, seeking a challenging role in an IT software house where I can leverage my technical skills and leadership abilities to drive project success.

Education Kohat University of Science and Technology, Pakistan (2017-2021)

BS Computer Science — (CGPA: 3.60/4.00) Thesis

(Final year project 2017 – 2021)

IoC-Chatbot: IoC-Chatbot is a real-time communication system designed for students and advisors at the Institute of Computing, KUST. The goal of the project is to streamline interaction, automate academic assistance, and provide a chatbot based fallback when advisors are offline. The system enables messaging, announcements, file sharing, profile management, advisor search, and multilingual support. Built using Flutter, Dart, Firebase, and Python/Dialogflow, the project aims to enhance academic communication efficiency and reduce response delays in student–advisor workflows.
